Richie, what can I say, except that I miss you and wish that I seen a lot more of you then I did in our older years, but I think of you often and in fact have a picture of you in my living room, and I see you everyday and when I look at your picture it's very saddening to me because your not with us anymore, but even though we didn't see much of each other lately I'll always think about you, and miss you as well.
