Frederick "Fred" William Rapple, Jr.

FEB 2, 1936 - FEB 28, 2024

Frederick "Fred" William Rapple, Jr. 88, of Liverpool, NY, passed away Wednesday, February 28, 2024. Fred was born on February 2, 1936, in Syracuse, NY to the late Frederick W. Rapple Sr. and Lorraine M. Rapple (Castle). He was preceded in death by younger brother Lawrence Rapple.

Fred graduated from North Syracuse High School in 1954. He then attended State University Teachers College at Oswego where he earned a Bachelor of Science degree in 1959, majoring in Industrial Arts Education. In 1964, Fred earned his Master of Science in Education. He was a brother of Sigma Tau Chi fraternity where he forged many lifelong friendships. After graduation, Fred taught Industrial Arts for 31 years at West Genesee High School in Camillus, NY until his retirement in 1991. Even in retirement Fred was a teacher through and through - everything was a lesson.

A lover of all things cars; Fred could sniff out a car show, no matter how small. He had the ability to interact with people and would strike up a conversation just about anywhere, with anyone. Fred was a talented and skilled woodworker who loved building just about anything. He was always tinkering with some type of project in his woodshop, crafting everything from detailed furniture to helping his kids with their school projects. When his children were young, they took many camping trips throughout the Northeast. The real adventure began in 1973, when the family purchased 59 acres of land in Lacona, NY. Fred's lifelong dream of building a summer retirement home was finally becoming a reality.

Fred loved nothing more than spending time with his family. He is survived by wife Sharon Rapple (Kaiser) of Liverpool; predeceased by his first wife Janet Rapple (Dier); their surviving children Rick Rapple (Lisa), Elizabeth Rapple, David Rapple (Lisa); step-children Dawn Szatanek (Rob), Robert Coon, and Kimberly Sorts (Jeff); 13 grandchildren and 14 great grandchildren.

Family and friends may call on Saturday, March 16, 2024 from 9:30 - 11:30 am, followed by a Funeral Service in celebration of Fred's life at the THOMAS J. PIRRO JR. FUNERAL HOME,

Fred's mother was my mother's sister, so I was blessed to know him my whole life. He had his mother's eyes, her sense of humor, and her laugh. I remember he was always full of fun and good humor. He made the best of every situation and courageously supported his first wife, Janet, before she passed, much too young. He made every family gathering much more fun. I also appreciate when he and Sharon spent their winters in FL, how helpful they were to my aging parents. His presence near my parents gave me much peace of mind and he was so helpful to them! Fred was quite the prankster! When I was 3 years old, and Fred must have been in his early 20s, he was at our house on Long Island. He gave me a rock, about 7-inches long, that was shaped like an egg. He told me that if I kept it warm it would hatch into a dinosaur that I could keep as a pet. For weeks I wrapped the rock in a doll blanket, talked to it, and carried it around. After a time, my older and wiser sister convinced me it was just a rock. I could never look at a large, egg-shaped rock without thinking of this joke! I love you Fred, thank you for the great times, and I miss you. Patricia Hoyt

I was a student of Mr. Rapple 1980 and 1981. I wanted to be an architect, of a sort, and I loved him as our teacher. He taught so much more than mechanical drawing; patience, good humor, a well rounded curriculum that never disappointed. A true joy and one of my favorite teachers of all time. God Bless You, Mr. Rapple.(Fred, behind his back!) A wonderful soul.

My heartfelt condolences are extended to the Rapple family. We were colleagues and friends at West Genesee HS for many years. It's comforting to know that Fred lived a full life doing the things he loved doing. I regret I can't attend the service since I am in Florida until the end of the month.

My sympathies to Fred's family and friends. He was my high school teacher for multiple courses including architectural drafting, 1963-65. His influence on me is why I became an industrial arts teacher and then a special education teacher. Fred was, in my eyes, the consummate educator. Bruce Kaiser
